SPEAKER

JAY COLLINS

State Senator Florida

Senator Collins is a highly decorated Army Special Forces combat veteran who received a number of debilitating injuries causing him to lose his leg. After serving five additional years as a Green Beret post-amputation, he retired with over 23 years of service.

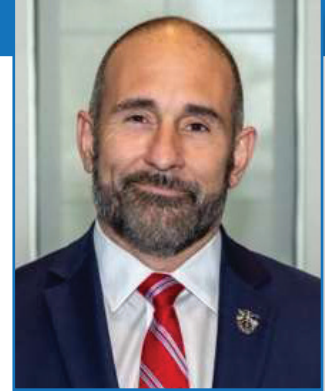

Following his military service, Senator Collins took a position with Operation BBQ Relief, overseeing the distribution of millions of meals to Americans following natural disasters and helping veterans and their families by creating culinary delights together.

The Senator answered the call to public service by running for Florida State Senate in District 14 in 2022.

Following his victory, Senator Collins was appointed to a number of committees, serving as Chairman of the Agriculture Committee and, currently, the Transportation Committee.

He has passed over 40 pieces of legislation and brought back over \$120 million to improve the Tampa Bay region, Florida's First Responders and Veterans, and some of the finest Florida State Educational Institutions.

A committed family man, Senator Collins is married to his wife of 23 years Layla, a retired veteran with 20 years of service in her own right, and a father to two young sons, Gabe and Colt. As a family they rescued their pup Tucker and attend Grace Family Church.

SPEAKER

DANIEL “DANNY” ALVAREZ SR.

State Representative

Mr. Alvarez is serving his second term in the Florida State House of Representatives for District 69 located in Hillsborough County. He currently serves as Chair on the Criminal Justice Subcommittee and Vice Chair on the Security & Threat Assessment Committee. Mr. Alvarez was appointed to the Tampa Hillsborough Expressway Authority Board of Directors by the Governor of Florida in 2015 and served as its Secretary until his election to the Legislature.

Daniel serves as General Counsel for the Tampa Police Benevolent Association, representing almost 1,200 active, reserve and retired members of the Tampa Police Department.

He received his bachelor's degree in Communications from the University of Florida in 1997. He graduated with his master's degree in Education in 2001 and later his Law Degree from Stetson College of Law in 2007. He then earned his Master's in Law Degree (L.L.M.) from the University of Miami College of Law in 2009.

After college he served as an infantry officer in the United States Army. He was a performing member of the Silver Wings, the Army's first and oldest parachute demonstration and skydiving team. After six years of combined service, he departed the Army in 2001 as a Captain before transitioning to a Johnson and Johnson affiliate as a successful pharmaceutical sales representative.

We transform data into a moving experience

Urban mobility should mean people and goods move across existing infrastructure safely and efficiently. With rapid urbanization, however, congestion and confusion are all too often the reality. Conduent's data-driven transportation solutions deliver improved efficiency and increased capacity across multiple transportation systems.

The way forward.

"Logic will get you from A to B.
 Imagination will get you everywhere."

Albert Einstein

We couldn't agree more.

Using smart cities technologies that interact with the community but also collect data will help cities and transportation agencies shape the future of urban mobility.

And placing users at the heart of our intelligent mobility approach is vital. Our focus is simple: improve the movement of people and goods and transform the infrastructure of our cities to increase efficiency and safety, maximize resources, boost sustainability, create resilience and promote economic growth.

We're collaborating with clients and partners to help move what matters.
